

Attachments, Accessories and Upgrade Kits

EDC Upgrade - Kit #12-1118-CP

After

**Now with operator
 touchscreen control!**

**Optimize your machine's performance
 with a control system upgrade kit**

By upgrading your equipment for optimum performance you can increase productivity and ultimately, increase sales. Hudson-Sharp has now developed an upgrade kit to convert your machine's EDC system to a new state-of-the-art Beckhoff controls platform. Order kit #12-1118-CP.

Upgraded Control System:

- New, 6.5" color touchscreen replaces the existing EDC 4-line by 20 character display.
- Network communications modem capability.
- Ladder programming that allows computer debugging and diagnostics (with applicable software, which is not included).
- Storage for job recipes for easy retrieval of job parameters.

Increased PLS Outputs:

- Increased quantity of PLS outputs are available with the upgraded control system.

- Option to add more I/O.

Improved Operator Communications:

- Fault announcement is clearly noted on the touchscreen control panel with date and time stamp history.

Modular Integrated Electrical System:

- Integrated, digital processing versus previous EDC and PLC.
- Cost saving, modular design.

Support and Service:

- Whether you're located around the corner or around the globe, the Hudson-Sharp Machine Company's Service and Support network can provide the assistance you need.

Note: Specifications are estimated and subject to change. Contact your Hudson-Sharp Area Sales Manager or After-Market Sales Manager for further details.
